Sickle Cell Health Awareness Sessions

The sessions are being held to make you better informed about the disease, treatment methods, and current services that are available.

A GLOBAL DISEASE

Sickle Cell Disease is a global disease that affects close to 100,000 people in the United States with those of African descent are affected in the greatest numbers. In addition people of Mediterranean, Hispanic, Native American, Asian, Sicilian, Greek, Italian, Indian and Turkish ancestry are also affected, but in smaller percentages.
